#### NOTES :

Don't wait for your feet to scream at you, to throb and to burn before giving them some attention! There is definitely a mental connection between our feet and our emotions, how often do we hear, "My feet are killing me?" In fact, the ancient Greek philosopher, Socrates, once claimed, "When our feet hurt, we hurt all over".

NATURCARE FootCare is more than just FootCare, it is Foot Repair! It can put life back into your feet and you can have a complete pedicure in your own home. Pampering your feet may seem like an ultimate indulgence, however, it should be an essential part of our weekly routine. Spoil your feet at least once a week and put a skip back into your step!
